

Subj: Please reconsider your position on drilling

I am writing to ask that the Virginia Outdoors Foundation reconsider its policy to allow oil and gas exploration and extraction on conservation easements in Virginia.

The VOF was created, "to promote the preservation of open-space lands and...preserve the natural, scenic, historic, open-space and recreational areas of the Commonwealth." Permitting industrial oil and gas exploration, and specifically allowing hydraulic fracturing, on protected land is not consistent with this purpose and mission.
