

Change.org Petition: By frackingisnotconservation.com

Letter to:

Molly Ward, Virginia Secretary of Natural Resources
Virginia Outdoors Foundation, Brett Glymph, Executive Director, Virginia Outdoors Foundation
Charles H. Seilheimer, Jr., Chairman, Board of Trustees, Virginia Outdoors Foundation

Please do the right thing for conservation: explicitly prohibit oil and gas extraction from all future VOF conservation easements.

Please do not jeopardize VOF's 47-year legacy for a Texas-based oil & gas drilling company, or for a handful of landowners who want to get tax credits and still be able to drill for oil and gas.

Fracking is an industrial operation with recognized hazards and risks, and does not belong in conservation easements. US Fish & Wildlife Service and US Geological Survey report: "After the spill of hydraulic fracturing fluid, state and federal scientists observed a significant die-off of aquatic life in Acorn Fork. . . consistent with exposure to acidic water and toxic concentrations of heavy metals."

Many people oppose any and all fracking - why is it OK in VOF conservation easements?

- Many believe fracking should be banned altogether in Virginia's Coastal Plain.
- Audubon petitioned the Florida State Government to "Ban All Fracking" in Florida.
- The Nature Conservancy published a report that fracking "should not proceed" in New York.
- US Fish & Wildlife Service listed 31 Service Trust Resource Concerns about fracking in Texas.

There is absolutely no public benefit to fracking in easements. How can Virginia Outdoors Foundation reconcile the environmental risk with its mission to "preserve the natural, scenic, historic, scientific, open-space and recreational areas of the Commonwealth?"

Fracking is the OPPOSITE of conservation and is an insult to true conservationists. Just because the IRS says fracking is legal in conservation easements doesn't mean it's the right thing for Virginia.

Thank you for listening to the will of the people.
Sincerely,

THROUGH 4/4/14
